

ORBITALA

who dares wins

PRODUCT: 2,4-Dinitroanisole (DNAN)

Chemical formula: C₇H₆N₂O₅

CAS Number: 119-27-7

Density: 1.336 g cm⁻³

Melting point: 94.5

CHARACTERISTICS:

Appearance	Yellowish fine powder
Solubility	Completely soluble in ethyl acetate, acetone, methanol
Moisture by KF	0.11%
Melting point	96 °C
Purity by HPLC	99.35

USES:

DNAN is used as an explosive, replacing TNT.

It is used in explosive mixtures in the spider grenade.
